

Company Profile

Founded in 1991, audius SE is a worldwide operating ITC company. From network technology to concrete software applications, the group of companies offers the right solutions for public-sector clients, medium-sized companies and international active corporations.

Supporting several hundred thousand IT workstations in the DACH region, over 600 employees at more than 20 locations - 15 of them in Germany - focus on the use of future-oriented technologies and best practices. Another business unit focuses on network infrastructures, in particular the establishment and expansion of the 5G network.

The audius Group's customers include global corporations and medium-sized companies. The strategic goal is to grow both organically and through acquisitions.
